Event: A COLLOQUIUM on "Approach to teaching and research in Engineering field"

Organized by: IQAC , & Dept of Electronics Engg.,Priyadarshini College of Engineering, Nagpur.

Participants : Faculty members of different colleges.

Date: 15-06-2018

Objectives: To give exposure to the faculty about Research and different methodology to be used in research.

Resource Persons: Dr.J.P.Modak, Dean (R&D) Dr.S.S.Shriramwar, Dean Academics & IQAC coordinator, Mrs.Vrushali Nasre (Dept E &T)Assit .Prof.

Remark: The faculties from various colleges of Nagpur Participated . Dr.J.P.Modak Shared new concept and approach of research by using VHDL with AMS simulation. Dr.S.S.Shriramwar talked on Advantages and further scope of FPGA based design. Mrs.Vrushali Nasare shared various new techniques and software used in Analog designing.

Outcome: In this Event, faculties shared their knowledge, got their doubts cleared. They came to know about different areas of research. They were asked to work in these areas.

National Conference on
"Recent Trends in Electrical Engineering"
on
15th and 16th March, 2019.

Total No. of papers :65

Guest:

Dr.R.L.Srivatsava, Chairman, The Institution of Engineer, Nagpur Local Centre, Nagpur.

Dr.H.M.Suryawanshi, Professor ,VNIT, Nagpur

Dr.M.P.Singh Principal, P.C.E, Nagpur.

Dr.S.A.Dhale, Vice Principal, PCE, Nagpur

Convenor:

Dr. K. B. Porate, Professor and HoD, Electrical Engineering

Objectives:

Electrical System has gone through rapid technical advances; the applications are fast expanding in industrial, commercial and utility environments. The utilisation of electrical energy should be optimised and conserved by means of advanced control technique and technology.

The objective of this conference is

1. To provide a platform for students and eminent researchers to present their work.
2. To interact and update themselves about various upcoming technologies in the field of Electrical Engineering.
3. To be aware of scope for advancement in the presented work.
4. To make UG students aware of how to write a technical paper and develop presentation skill by delivering paper in conference.

9. One week STTP on “Machine Learning : Mathematical Modelling and Implementation”.

ABOUT STTP

Machine learning is a field which gives computers the ability to learn and make predictions on data. Machine learning allows software applications to become more accurate in predicting outcomes without being explicitly programmed. The basic premise of machine learning is to build algorithms that can receive input data and use statistical analysis to predict an output value within an acceptable range. Conversion of real world phenomena under certain conditions into mathematical formulation is known as Mathematical Modeling. This STTP is aimed at giving theoretical knowledge as well as hands-on training to the Faculty Members and Research Scholars on various aspects of mathematical Modeling with machine learning techniques.

OBJECTIVE

The Main Objectives of this STTP is to understand fundamentals of Mathematical Modeling, to develop mathematical Model for real word problem, to use machine learning techniques for building computer applications.

COURSE CONTENT

Understanding the Concept and Purpose of Mathematical Modeling, To develop, solve/analyze a mathematical model of the real-life problem/ system ,Machine Learning concepts and Implementation, Lab sessions using R programming , Python and other machine learning tools, Mathematical modeling and implementation of case studies/demos by Experts from NEERI and IT Industry, Visit to NEERI, Nagpur

PARTICIPANTS

The course is of interdisciplinary in nature. Teachers/Research Scholars from various streams of science and engineering colleges, polytechnics, science colleges and professionals from industries can apply for the course.

ABOUT INSTITUTE

The Priyadarshini College of Engineering, Nagpur, one of the leading Engineering College, in the progressive and most competitive State of Maharashtra, established in 1990. It has been accredited by A+ grade By NAAC and has been conferred "A" grade by the Government of Maharashtra on the basis of distinct infrastructure and academic achievements. College has Mechanical Engineering, Civil Engineering, Computer Technology, Electrical Engineering, Electronics Engineering, Electronics and Telecommunication Engineering, and Information Technology departments. The Departments are accredited by National Board of Accreditation, New Delhi for Three years. The setup of Priyadarshini campus is developed on a sprawling 72-acres hilly terrain at Nagpur – the orange city.

ABOUT DEPARTMENT

The Department of Computer Technology was established in 1990 .Computer Technology department has a setup to provide advanced computer education to the students. The department has state-of-the-art laboratories, well qualified and experienced faculties and staff to cater to the above requirements. Computer Technology department has a very vibrant students' forum SCOoP which organizes co-curricular and extra-curricular activities. The placement scenario of the Computer Technology students is also quite encouraging as maximum students are placed in various prestigious organizations of IT sector .In a nutshell, the department strives to create an ambience that provides opportunities for all-round development of students to face the competitive world.
