**INSTITUTIONAL CORE VALUES**

**Excellence and Continuous Improvement**

Institute upholds a culture of continuous improvement. It strictly adheres to the highest standards of quality of teaching learning process. It also strives for continuous improvement in all areas, and attempts its very best to meet global standards of education.

**Learning and Development**

Institute is a student-centered institution. We are committed to provide best educational experience to every student. However we seek to develop the strengths & talents of students as well as our faculty members & supporting staff equally well. This allows the Institute to deliver the most effective experience for the students in their learning & all round development process.

**Accountability & Integrity**

The institute is committed towards providing all necessary facilities & infrastructure to the students & staff. The roles & responsibilities of all the stake holders is well defined & transparent.

The institute upholds the principles of honesty & transparency. It runs a culture of responsible decision making & conflict resolution where the ethics, transparency & honesty are the guiding principles.

Institute adheres to the principles of ethical behaviour amongst staff member, between students & staff & with the community that we serve.

**Creative expressions and Entrepreneurism**

Institute is committed to provide an environment where the creativity of its students & faculty are respected & accepted as basic traits. The expansion of creative abilities & their continuous expression serves as a strong foundation in all the challenges of life that they face. We provide a range of programs, cultural, social, educational & recreational, aimed at imbuing values & creativity.

The creative abilities allow the students to recognize the hidden opportunities within the challenges of life & makes a good foundation for entrepreneurship. The institute also runs various activities to further enhance entrepreneurial abilities of students.

**Community & Social responsibility**

The Institute strives to develop the students as passionate global citizens. The students who uphold the highest standards of humanity, social responsibility, gender neutrality, environmental awareness & philanthropy are our targets. We aim to inculcate these qualities by way of curricular, co-curricular & extra curricular activities.
