

PRIYADARSHINI COLLEGE OF ENGINEERING, NAGPUR

SESSION: 2023-2024

Department: Department Electronics and Telecommunication Engineering

Mode of Conduction: Certificate Course on Mixed Signal Design

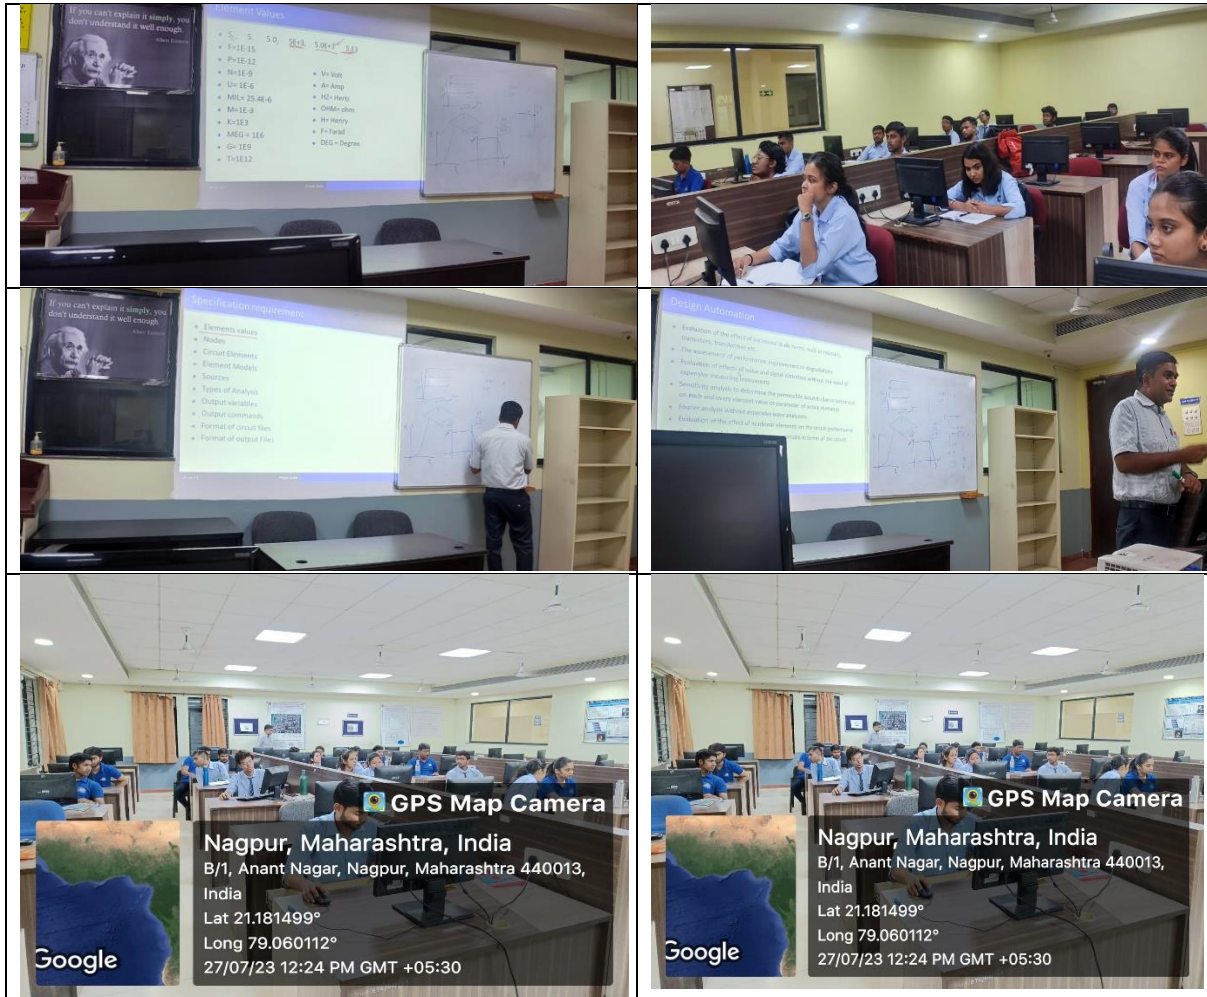

Duration: 24th July- 28th July 2023

Topic: Mixed Signal Design

Name of Resource Person: Dr. Praveen Zode, Dr.D.B.Bhoyar , Dr. B.Y.Masram,
Dr.M.L.Keote , Dr.R.S.Keote ,Prof.S.S.Chiwande YCCE, Nagpur

Semester/Section: VII-A/B

No. of students attended: 24

Remarks/Conclusion:

The students of Seventh semester participated enthusiastically in certificate course on Mixed Signal Design and conducted by Department of Electronics and Telecommunication Engineering in association with YCCE, Nagpur.

The objective of the certificate course is to groom the participants for handling research problems, corporate training and consultancy in the concerned area. In this direction, this is a unique opportunity for the fraternity working on VLSI mixed signal processing for Analog circuit to gain the knowledge and hands-on pertaining to the latest developments.

This course is helpful to them for Mixed Signal Design subject in regular curriculum as well as it will very fruitful in carrier point of view in future.
